Agreement Serves Building Supply Dealers in Texas

November 10, 2008

Structa Wire Corp. and Dietrich Industries are pleased to announce their newly formed co-operation, – established for the purpose of providing the full line of Structa Wire products combined with the supply services of Dietrich Industries, on a LTL basis within the state of Texas.

Structa Wire inventories will be maintained in the Dietrich facilities in both Hutchins and Baytown – effective November 1, 2008.

Structa Wire products will become available for shipments together with Dietrich products, on scheduled truck routes and spot shipments. The weights of both product lines will be combined to achieve greater shipping efficiency and reduce costs.

Our sales and marketing activities will remain unchanged and will be provided by Robert Gleason in liaison with Frank Arnold and the sales desk of Structa Wire Corp.

Inventory control and shipping arrangements will be conducted by the Dietrich staff at the Hutchins and Baytown locations.

We believe this collaboration will strengthen our ability to supply superior lathing products and improved service into the Texas market.

We thank you for your support – past and present and in building a stronger future.
