INTRODUCING STRUCTA VTRUSS

VTRUSS

We are pleased to provide you with a complimentary carton of our new Structa V Truss Corner reinforcing product. Please introduce your lath & plaster contractors to our new product.

The new V Truss Corner is the result of our commitment to provide you with the best lathing products possible. Structa V Truss is an improvement of our original Structacorner.

FEATURES

- Engineered to provide superior reinforcement for stucco corners
- Increased rigidity for precise corner plaster work
- Improved embedment
- Abundant nailing opportunities & twin trac's – for ease of attachment
- Easy to handle with fewer sharp ends
- Conforms to requirements for stucco reinforcing as defined in the UBC IBC & IRC building codes.
- Available in both regular galvanized coating and our Chrom EX™ GOLD finish
Chrom EX™ is a chromate process that provides up to 10x the corrosion resistance of conventional galvanized products.
Chrom EX™ products are recommended for coastal climates and for use with EIFS & Acrylic Stucco finishes.
- **Profiles** Three Coat - 10ft, 9ft, 8ft, Bullnose & One Coat - 10ft.

PACKAGING:

- Packaged 40 pieces per carton
- 30 cartons per pallet

PRICING:

- Same as regular Structacorner

ICC ESR 2017
